Bachelor of Science, Computer Science & Business Technology Management

EXPERIENCE

Liner (AI Search Agent Series C Startup), San Francisco Bay Area

May 2026–Aug 2026

Product Manager, API Growth & Monetization – MBA Intern

- Owned growth and monetization for Liner's AI search API, tripling landing-to-paid conversion by redesigning the acquisition-to-purchase journey with interactive product comparisons and bonus credits for adding a card
- Built an AI-assisted system for prospect research and outbound preparation across 1,200 accounts, contributing to an enterprise win and \$400K in qualified ARR pipeline
- Acquired the first 1,000 active API users by launching integrations with AI assistants and workflow platforms alongside developer and startup incentive programs

Toss Bank (Largest Korea Fintech Company), Seoul, Korea

Jun 2023–Jul 2025

Product Manager, Social Squad (Feb 2024–Jul 2025)

- Launched 0-to-1 social-banking product, Challenge Account, by turning savings behavior into a shared daily challenge loop; reached 300K+ MAU, 70%+ week-1 retention, and reduced company-wide churn by 5%p
- Redesigned pricing strategy using cohort analysis and 30+ customer interviews; aligned 40+ stakeholders to approve a 1.7pp interest-rate reduction, delivering \$4.3M in annual savings without harming retention
- Repositioned a generic joint account into distinct offerings for couples and clubs using behavioral analysis of 1M+ users, tailoring budgeting and expense management to lift daily account openings 30% and NPS 20 points
- Aligned engineering and design around shared quarterly OKRs and structured feedback, accelerating feature delivery by 20% and achieving 95% team satisfaction

Product Manager, Growth Squad (Jun 2023–Jan 2024)

- Led cross-functional team of developers and designers to drive 2.1M+ new accounts (+30% in 6 months) through viral loops, SEO optimization, and rewards programs, establishing Toss Bank as Korea's fastest-growing bank
- Built scalable viral-growth engine based on customer behavior analysis, generating 100M+ link shares within 72h and onboarding 3M+ additional users (40% of total user base) after scaling across multiple product teams
- Identified funnel friction through behavioral analysis and customer research, then prioritized 15+ A/B tests that improved acquisition conversion by 15%

Match Group, HYPERCONNECT (Global Livestreaming Startup), Seoul, Korea

Dec 2020–May 2023

Product Manager, Hakuna Live

- Improved user safety by refining data labeling and custom dashboards for AI moderation, increasing detection accuracy by 30% and reducing review latency by 50%
 - Owned full product lifecycle of Metaverse Live, an interactive avatar space for viewers and streamers, leading a team of 10+ from roadmap and MVP through 20+ releases, growing MAU by 10% (100K+ additional users)
 - Led a phased rollout of a new streaming solution, prioritizing large partner channels to balance upfront costs and delivery economics, resulting in a 10% increase in viewer engagement and creator CSAT by 20 points
-
